

ENVIROMENTAL POLICY

As environment is important and clearly linked to our business and activities, the directors of Siat Nigeria Limited (SNL) have chosen to write a policy outlining its environmental objectives and to maintain in the company continuous improvement of its environmental performance.

The company is committed to providing quality service in a manner that ensures a safe and healthy workplace and minimizes its potential impact on the environment. It will operate in compliance with all relevant environmental legislation and will strive to use pollution prevention and environmental best practices in all operations.

Our Policy Objectives therefore, are to:

- Commit to the principles and criteria of RSPO (Roundtable on sustainable Palm Oil)
- Integrate considerations of environmental concern and impact into all of its decision making and activities.
- Take into account stakeholder and customer concerns in its environmental decisions
- Promote environmental awareness among employees and encourage them to work in an environmentally responsible manner.
- Train, educate and inform our employees about environmental issues that may affect their work.
- Reduce waste through re-use and recycling as much as possible.
- Minimize the use of fossil energy by recycling industrial waste into green energy supply.
- Promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable.
- Respect high conservation value areas by preserving biodiversity, protecting endangered fauna and flora and also protecting water courses within the plantation.
- Avoid unnecessary use of hazardous materials and products, seek substitutes when feasible and take all reasonable steps to protect human health and the environment when such materials must be used, stored or disposed of.
- Develop and maintain appropriate emergency and spill response programs, especially where required by legislation or where significant health, safety or environmental hazards exist.
- Communicate our environmental commitment to client, customers, and the public, and encourage them to support it.
- Strive to continuously improve our environmental performance and minimize the special impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

Felix Nwabuko

Managing Director
